ANT Industries Limited

Strategic report Year ended 31 December 2024

Principal Activity and review of the business

ANT Industries Limited specialise in the manufacture and supply of precision machined components and assemblies for the Aerospace, Power Generation, Defence, Marine and Sustainable energy markets.

The Company supplies a wide range of goods and services directly to Original Equipment Manufacturers and other tier one suppliers. ANT Industries support programmes from the development stage through to volume production and post-production programmes.

2024 was a strong trading year for ANT Industries Ltd. Sales increased by 29% to £9.8M up by £2M compared to the previous year and gross profit of increased from £941k (12%) to £1.8M (19%).
Net profit before tax for the year was £1,117,570 (11%) compared with £369,929 (4.9%) in 2023

All sectors of our business are showing signs of growth with increased demand of circa 30%-40% over the next 2-3 years particularly in the Civil aviation and industrial gas turbines sectors.

Our sales orderbook value for 2025,2026 and 2027 already surpasses 2024 sales. Plans to invest in people and equipment are in place to support this growth.

Material availability, cost and long lead times together with a fragile supply chain are a significant risk to growth and are expected to create challenges for the coming years.

Principle risks and uncertainties

Risk 1 - Economic and Political-Rating Medium-High

Although the company's facilities are based in the UK it is affected by global economic conditions with over 70% of its product being exported to Europe and the Rest of the World. The company looks for early trends in global markets that may impact our business and where possible take action to mitigate exposure.

Inflation, energy costs, interest rates and a significant rise in employers national insurance remain a significant concern, where possible these challenges have been accounted for in the coming year, these risks are carefully monitored and every effort is made to maintain cost effectiveness.

A 120KW solar system has helped contain energy costs but additional investment in energy efficient equipment is necessary to drive towards net zero.

New opportunities in supporting the manufacture of renewable energy and space are emerging and we expect this to become a significant part of our business in the coming years.

Risk 2 - Commercial and Delivery- Rating Medium

The company operates in a competitive and diverse market across the world and is successful in Aerospace, Power Generation and Defence markets. Each of these markets has its own risk which, to some degree, are naturally mitigated due to diversification.

Specific risk exists in the concentration of a single or few customers that account for large percentages of sales, this is mitigated by having long term agreements in place of up to 8 years. These agreements are linked to delivery and quality performance and a zero defects programme ensuring continued high standards of performance.

Risk 3 - Technology-Risk Medium

Technology remains a key focus for the company and investment is guided by a technology road map which is reviewed on a regular basis to mitigate the risk in change of customer or customer focus.

ANT Industries Limited

Strategic report (continued)
Year ended 31 December 2024

Principle risks and uncertainties (continued)

Risk 4-Information Security and Cyber Threats [rating medium]

Information security and cyber threats are a priority. The company holds increasingly more personal, customer and supplier data including drawings and computer aided models and must be securely protected. Procedures are in place to protect from cyber fraud and the company continues to maintain GDPR procedure as is required.

Risk 5-Foreign Exchange [Rating Medium]

Due to trading in global markets, the company operates in the volatile environment of the foreign exchange rate which continues to have both favourable and adverse impacts on the company. This risk is mitigated to some degree by buying and selling goods in the same currency.

Risk 6-Catastrophic Incident [Rating Low]

The company considers the impact that a major terrorism incident could have on the demand for new aircraft, aircraft spares and also reduced passenger levels. The company also considers similar impacts caused by technical/manufacturing failure. Appropriate quality control procedures exist to mitigate this risk. The company is not responsible for design of aircraft components.

This report was approved by the board of directors on 25 September 2025 and signed on behalf of the board by:

Mr S Rowley
Director

ANT Industries Limited

Director's report Year ended 31 December 2024

The director presents his report and the financial statements of the company for the year ended 31 December 2024.

Director

The director who served the company during the year was as follows:

Mr S Rowley

Dividends

Particulars of recommended dividends are detailed in note 12 to the financial statements.

Financial instruments

The principal financial instruments for the company comprise bank balances and borrowings, factoring of trade debtors, trade creditors, trade debtors and hire purchase contracts. The main purpose of these instruments is to raise funds for the group's operations and to finance its continuing operations. Liquidity risk is managed by the use of bank balances, overdraft facilities, a bank loan and factoring of the trade debtors along with efficient monitoring and forecasting of cash flows to ensure there are sufficient funds to meet liabilities. Trade debtors are managed in respect of credit and cash flow risk by policies monitoring the credit offered to customers and regular monitoring of amounts outstanding for both time and credit limits.

Research and development

The company has an ongoing policy in developing manufacturing processes as a result of advances in technology. The director regards the investment in development as integral to the continuing success of the group.

Director's responsibilities statement

The director is responsible for preparing the strategic report, director's report and the financial statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial year. Under that law the director has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the director must not approve the financial statements unless he is satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss of the company for that period.

In preparing these financial statements, the director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable him to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

ANT Industries Limited

Director's report (continued)
Year ended 31 December 2024

Auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as they are aware, there is no relevant audit information of which the company's auditor is unaware; and
- they have taken all steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

The auditor is deemed to have been re-appointed in accordance with section 487 of the Companies Act 2006.

This report was approved by the board of directors on 25 September 2025 and signed on behalf of the board by:

A handwritten signature in black ink, appearing to read 'S Rowley', written in a cursive style.

Mr S Rowley
Director

ANT Industries Limited

Independent auditor's report to the members of ANT Industries Limited Year ended 31 December 2024

Opinion

We have audited the financial statements of ANT Industries Limited (the 'company') for the year ended 31 December 2024 which comprise the statement of comprehensive income, statement of financial position, statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the director with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The director is responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

ANT Industries Limited

Independent auditor's report to the members of ANT Industries Limited (continued) Year ended 31 December 2024

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the director's report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the director's report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the director's report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and the returns; or
- certain disclosures of director's remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the director's responsibilities statement, the director is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the director is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

ANT Industries Limited

Independent auditor's report to the members of ANT Industries Limited (continued) Year ended 31 December 2024

In order to assess the risk of material misstatement due to irregularities, including fraud and non-compliance with laws and regulations, the following procedures were carried out:

- Consideration of the nature of the industry and the relevant laws and regulations;
- Enquiring of management of the applicable laws and regulations and any known instances of non-compliance;
- Obtaining an understanding of the legal and regulatory framework in which the entity operates which have a direct effect on the financial statements, including the UK Companies Act and Financial Reporting Standards;
- Considering other laws and regulations where, although not having a direct impact on the financial statements, compliance may be fundamental to the entity's ability to continue trading.

Using the understanding we gained from the above, we designed audit procedures to identify non-compliance with these laws and regulations and to respond to fraud risk. This included:

- Reviewing financial statement disclosures;
- Enquiring with management of any known non-compliance, and any past or current litigation or claims;
- Reviewing legal expenses for costs incurred in relation to non-compliance or fraud;
- Testing of journal entries for indications of management override of controls;
- Reviewing the results of the AS9100 and NADCAP audits;
- Enquiring of management of controls in place and walkthrough testing of systems;
- Substantive testing of balances and transactions.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

As part of an audit in accordance with ISAs (UK), we exercise professional judgment and maintain professional scepticism throughout the audit. we also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the director.
- Conclude on the appropriateness of the director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

ANT Industries Limited

**Independent auditor's report to the members of
ANT Industries Limited (continued)
Year ended 31 December 2024**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

ANT Industries Limited

Notes to the financial statements Year ended 31 December 2024

1. General information

The company specialises in the manufacture of precision machined components for the aerospace, energy and marine industries.

The company is a private company limited by shares, registered in England. The address of the registered office is Carlyon Road Industrial Estate, Atherstone, Warwickshire, CV9 1LQ.

2. Statement of compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Disclosure exemptions

The company's indirect parent undertaking, ANT Holdings Limited, includes the company in its consolidated accounts. ANT Holdings Limited has the same registered office address as the company.

The company has taken advantage of the following disclosure exemption in preparing these financial statements as permitted by FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

- The requirement of Section 7 Statement of Cash Flows.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

ANT Industries Limited

Notes to the financial statements (continued) **Year ended 31 December 2024**

Foreign currencies

Foreign currency transactions are initially recorded in the functional currency, by applying the spot exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the reporting date, with any gains or losses being taken to profit or loss.

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Research and development

Research expenditure is written off in the year in which it is incurred.

Development expenditure incurred is capitalised as an intangible asset only when all of the following criteria are met:

- It is technically feasible to complete the intangible asset so that it will be available for use or sale;
- There is the intention to complete the intangible asset and use or sell it;
- There is the ability to use or sell the intangible asset;
- The use or sale of the intangible asset will generate probable future economic benefits;
- There are adequate technical, financial and other resources available to complete the development and to use or sell the intangible asset; and
- The expenditure attributable to the intangible asset during its development can be measured reliably.

Expenditure that does not meet the above criteria is expensed as incurred.

Tangible assets

Tangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated depreciation and impairment losses. Long leasehold property is recognised under the revaluation model.

Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in capital and reserves, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in capital and reserves in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in capital and reserves in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Long leasehold property	-	Straight line over the life of the lease
Plant and machinery	-	15% reducing balance
Fittings fixtures and equipment	-	15% reducing balance
Motor vehicles	-	15% reducing balance

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

ANT Industries Limited

Notes to the financial statements (continued) **Year ended 31 December 2024**

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

Hire purchase and finance leases

Assets held under finance leases are recognised in the statement of financial position as assets and liabilities at the lower of the fair value of the assets and the present value of the minimum lease payments, which is determined at the inception of the lease term. Any initial direct costs of the lease are added to the amount recognised as an asset.

Lease payments are apportioned between the finance charges and reduction of the outstanding lease liability using the effective interest method. Finance charges are allocated to each period so as to produce a constant rate of interest on the remaining balance of the liability.

Government grants

Government grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event; it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense.

Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised in finance costs in profit or loss in the period it arises.

Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable, the factoring of debts, loans from banks and other third parties and loans to the related parties.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

ANT Industries Limited
